

NUCONCEPT COUNTERTOP & KITCHEN CENTRE

CABINET MAINTANENCE

For regular cleaning of all doors, wipe with a damp, soft cloth.
Dry immediately.

For major cleaning, wipe WOOD doors with a damp, soft cloth.
Dry immediately with another day, soft cloth. Follow with a light coat of high quality liquid or paste furniture wax.

Do not use detergents, strong soap, abrasive or self polishing, waxes; or use cloths such as dish cloths, which may contain remnants of these cleaners.

Treat your cabinets as you would your own furniture and they will reward you with long lasting beauty and utility. Clean and wax occasionally, at least once every 6 months.

The interior of your kitchen cabinets is coated with a water resistant topcoat. Water or other liquids, when allowed to sit on the surface for prolonged periods of time, may cause staining or bubbling. In order to prevent this, please ensure dishes, glasses, etc., are dry before placing them in cupboards.
